

REALISE *the News* – June 2019

The REALISE program is wrapping up its training program for the 2018/2019 academic year and getting ready for next year. If you have any ideas for workshops, seminars, or other learning opportunities you think would benefit HBI trainees, please let us know! Feel free to email us at realise@ucalgary.ca or drop by [HSC 2025](#) anytime.

Read on for a few upcoming events that you may be interested in, and stay tuned for our next newsletter in early September. We wish you all the very best for a fabulous summer!

UPCOMING EVENTS AND OPPORTUNITIES

Neuroimmunology

May 13 – June 10 | 9 am – 12 pm

The MDSC 755 (Neuroimmunology) course consists of 25 lectures covering the following topics: 1) fundamentals of immunology - function and regulation of immune cells; 2) the role of immune cells in the central and peripheral nervous systems; 3) how immune cells contribute to various CNS diseases and injury; and, 4) experimental assays and tools to study neuroimmunological diseases. **REALISE program members are welcome to attend any lecture of interest to them.**
